

ACM-W Junior Mentorship 2024

Programme Guide

Introduction

ACM-W's Junior Mentorship Programme (ACM-W JuMP) aims to build a cohesive community of undergraduate developers. It pairs students as **mentees** with third- and fourth-year **mentors** with a goal to learn technical and soft skills.

The programme runs from **February 12th to April 30th, 2024**. Over the course of 2 and half months, mentees will first learn the basics of development, plan the project, and finally build an application with the help of mentors. During the programme, all participants will receive opportunities to access resources, exclusive networking spaces and interaction with faculty.

The programme is designed to fit in with your tests and examinations. **It is meant to be a project that adds on to your university experience.**

This guide will give you a better idea about the programme, eligibility criteria, registration process, project timeline, benefits, and any other nitty-gritty details.

Apply as a Mentee

Eligibility Criteria

1. Currently enrolled in **first, second or third year** of an undergraduate course at BITS Pilani, Dubai Campus
2. **Female students registered as an ACM-W member.**
If you are not a member, you will be required to register for membership.
3. Drive to learn and build a **career in tech.**

Roles and Responsibilities

1. Bring a can-do attitude and curiosity to the table. You need to be driven and focused.
2. Be a team player. You will be working on a project with other mentees. Share ideas and collaborate effectively.
3. Stay organized and on top of things unless you want deadlines to haunt you.
4. Attend briefings and communicate with your mentors to keep them updated with your progress.
5. Create presentations and video content to share your ideas and progress with faculty and students.

Apply as a Mentor

Eligibility Criteria

1. Currently enrolled in **third or fourth year** of an undergraduate course at BITS Pilani, Dubai Campus
2. Knowledge and experience in **any technical domain**
3. Basic Knowledge of version control & collaboration software like **Git and GitHub**.
4. Drive to learn, teach and strengthen your skills.

Roles and Responsibilities

1. Bring a can-do attitude and curiosity to the table. You need to be driven and focused.
2. Be a team player. You will be working on a project with mentors and other mentees. Share ideas and collaborate effectively.
3. Stay organized and on top of things, unless you want deadlines to haunt you.
4. Share resources and feedback. You will be expected to mentor juniors throughout the programme.
5. Attend briefings and communicate with mentees, mentors and organizers.

What's in it for you?

if you're a mentee or mentor...

- **Learn project development** and brush up your knowledge (if you're already familiar with it)
- Learn to plan, design and code **collaboratively**.
- Feature on our **social media** pages; share your story and progress with the world.
- Get a **certificate** from our side signed by Faculty In-charge, certifying your participation and code of conduct!
- Get a **project** to add to your resume, GitHub and LinkedIn profile.
